THE FITZJOHN PORTER CASE

Gen McDowell's Testimony

New York, Oct 10—In the Fitzjohn Porter case to day the entire session of over five hours was occupied in hearing the testimony of Gen McDowell A large crowd was in attendance and many persons were compelled to stand during the proceedings Gen McDowell testified

Porter's corps was under his command he had no knowledge of General Longstreet's whereabouts on the morning of the [illegible] of August and had no knowledge of what Pope's policy and plans were He did not know of the intended battle except what he inferred from seeing a note from Pope to Porter that the troops were to move from Gainsville Porter did not say a severe fight was likely to take place He saw Porter about noon that day and after leaving him observed dust in the direction of the northwest and other indications of the presence of the enemy and was informed by Gen Buford that the force was moving on Warrenton turnpike After the first few questions and answer the proceedings were continually interrupted by objections by the judge advocate or counsel and long explanations or speeches by the witness who appeared to be more or less excited throughout the day Choate of counsel objected several times to McDowell arguing the case against Gen Porter and witness retorted with considerable feeling He said Porter gave him no information as to what he supposed to be the force of the enemy in his front

The first point in the cross-examination by Choate was as to what documents he had published printed or circulated relating to these matters since 1863 Witness admitted publishing a pamphlet in 1870 which was put in as evidence. He had no part in publishing a brief statement of the case except to furnish extracts from the reports of Jackson Stuart and Longstreet

The upshot of a very long examination on this point was he admitted that an extract furnished by him purporting to be from Stonewall Jackson's report of the operations of August 29th he now knew to refer to the 30th and that it was an error on his part for which he was excessively sorry He further said that he heard the question raised some years ago as to the date to which the extract referred but never took any pains to find out about it or correct it though he admitted that it did great injustice to Porter He printed and published other papers He knew Porter had been applying for a rehearing and one of his publications was called out because he thought Porter's application contained reflections upon him as to his commands to Rickett, Reynolds and King Witness refused to answer questions declaring he did not see the object

The court after deliberation decided the questions to be proper as bearing on events of the 29th and his orders were read showing he said that on the night of August 27th he expected Longstreet with a large force to come through Thoroughfare gap and ordered troops to go in that direction to cut him off On the morning of the 29th he knew Ricketts had withdrawn from the gap and that there was nothing to prevent the enemy from coming through He last saw Porter on the 29th at noon, at Dawkins branch, and took King's division, with which he went off to join Reynolds thinking the only forces before Porter were 17 regiments of the enemy, reported by Buford as having come through the gap Having left Porter it was in his discretion to attack or not. Witness declined to express an opinion as to what Porter ought to have done if he had found a much heavier force in his front but counsel said witness had expressed an opinion as to what would have happened if Porter had attacked on the trial, and that the opinion was largely instrumental in securing Porter's conviction Now that the state of facts is proved to be different, Porter is entitled to ask if witness' opinion has not changed

There was much excitement and feeling manifested in this part of the proceedings which occupied a long time, and the result was that McDowell admitted if Porter had ascertained that the force in front of him was twice as great as his own and twice as great as he (McDowell) supposed when he took away King and left him it would change his opinion as to Porter's duty in the matter

The next point was as to three dispatches from Porter to McDowell, which the latter had in his possession but did not introduce at the trial He was very indignant with counsel for asking him why he had not produced them, and said he had overlooked them and forgotten all about them though one of them, dated 6 P M of the 29th shows that up to that time Porter had not received the 4.30 order The dispatches were put in evidence and will be read to morrow and the board, after the most important and exciting day's session yet held adjourned at a late hour

WASHINGTON CITY.

Vigorous and Clear Instructions.

Washington, Oct 11.—After a consultation between the president, secretary of the treasury and the attorney general it has been decided that troops cannot now be used to aid internal revenue officials in Arkansas in breaking up illicit distilleries as requested by Collector Wheeler at Little Rock and the following telegram has been sent to that officer

It is decided not to invoke the aid of the military to enforce the law until you have exhausted all other means You are authorized to employ as large a force as you think necessary to enable you to seize stills and secure the arrest of the offenders referred to in your letter of the 3d inst If you cannot arm the force inform me what you need and arms will be ordered from here. Call upon the marshal to assist you with all the means at his command Organize a force strong enough to overcome resistance without bloodshed if possible and act promptly and vigorously and enforce the laws at all hazards Inform this office by telegraph of your actions

H C ROGERS

Acting Commissioner

Gen. Sherman's Son.

New York, Oct 11—The Tribune's Washington special says Gen Sherman says the stories recently circulated about the supposed unhappiness in his family are lies from beginning to end In regard to his son's entry into the priesthood, the general says neither Mrs. Sherman nor himself had anything to do with it Mrs Sherman, though an ardent Catholic never favored the entry of Thomas into the priesthood, but on the contrary rather opposed it As for himself, the general says that he intended to prepare Thomas to be a lawyer and when his ardent religious temperament became manifest he had tried to bring him under other influences. The latter had arrived at man's estate before he made his final determination to enter the priesthood, and was fully competent to decide the matter for himself

France Buying Grain.

[From the Philadelphia Times.]

The French grain crop is exceptionally bad, the harvest having been delayed by continuous and heavy rains so that whereas the deficiency of that country last year was reckoned at two millions of quarters, it is now believed that this year it will reach four millions or even more The London Saturday Review makes an estimate as high as five to seven millions, and to meet this heavy want French agents are already buying freely in the ports of the Black sea.

Bismarck on the Bill

Berlin, Oct 10—After [illegible] speech from Herr [illegible] on [illegible] the bill Bismarck addressed the house [illegible] He insinuated that Herr [illegible] was [illegible] with the [illegible] The chancellor defended the institutions of Germany [illegible] compared with those of [illegible] here [illegible] we [illegible] by [illegible] workingmen's [illegible] the laboring classes [illegible] property [illegible] the [illegible] and [illegible] rights of property He was willing to examine any positive proposition of social reforms to ameliorate the condition of the workingmen but he was brought face to face with a simple negation of which the only principle was the upheaval of the state and society The gospel of negation found refuge in Germany after the commune was suppressed in France It work had been aided by a press law and [illegible] No one believed that sentence of death would ever be carried out, but Prince Bismarck was grateful to the crown prince for not allowing mercy to supersede justice The machinations of socialists were partly responsible for commercial depression and lack of employment People should remember the series of crimes which resulted and culminated in attempts to assassinate a monarch who regardless of his crown and life devoted his whole existence to the welfare of his people yet some persons refused to see any peril and denied the urgency of the bill

Further Debate on the Bill.

Berlin, Oct 11—In the reichstag yesterday during the debate on the anti Socialist bill Hasselman well known socialist agitator, made a violent though clever speech beginning and ending with threats of violence and bloodshed as result of repressive legislation He said the people would hold those responsible for bloodshed who helped frame and carry the bill Concluding, he declared that if pacific endeavors of socialism were repressed, the day would come when Socialists would take up arms and fight against their tyrants

The president of the reichstag called Hasselman to order, and said the speech was incitement to rebellion

Hasselman repeated his words and was again called to order amid loud and indignant protests He went on to say "I am not personally in favor of revolution. I prefer pacific means but if we are forced to fight we shall know how to fight and I shall be proud to lay down my life on the field of honor Let Prince Bismarck remember 18th of March 1848

Herren Lowe and Bennigsen liberal leaders denounced the method and purposes of socialism and defended legislation for its repression, which Bennigsen declared even advanced liberals now admitted to be necessary

Bennigsen said he had no fear Bismarck would allow anti socialist law to be employed to impair the liberties of the people

Bismarck and the National Liberals.

OTHER BUSINESS OF THE HOUSE

H B 58—First reading A bill to limit the time for actions for the recovery of real property rules suspended and read a second time

An amendment was offered by George providing that in all cases where a cause of action has already accrued and the period prescribed by this section within which an action may be brought has expired or will expire within one year from the approval of this act, an action may be brought on such cause of action within one year from the date of the approval of this act

George Apperson Lord, Myers Fulton and Smith presented arguments in favor of the passage of this amendment. Burnett and Haines against

Fulton made an eloquent speech on this question basing his argument on the ground of justice and right and showing how mean it was for a man to sit quiet 19 years and see another man put thousands of dollars worth of improvements on property that he knows he has a claim to, and then at one stroke come down on him and take it away He thinks the argument offered by the senator from Baker that the senate will stultify itself by reconsidering is not a good one as any one who finds himself mistaken on any point is certainly not dishonored by correcting himself The amendment was adopted

George offered a second amendment adopted

Moved that the rules be suspended and bill put upon its passage now carried

Speaker announced that he had signed H J R 11 for a joint committee to investigate the management of public lands

H B 1[illegible]—To provide for purchase of 100 copies of vol [illegible] supreme court reports considered engrossed

H B 1[illegible]—To define bounds of Coos and Curry counties referred to committee on counties

H B 1[illegible]—Amending act appointing board of canal commissioners and relating to passage of boats through the falls ordered engrossed

H B 1[illegible]—To define duties of county assessor and his deputy referred to special committee—Scott Wright, Starkweather

H B 1[illegible]—To provide for internal improvements and the construction of railroads named therein

Mr Hewitt moved to refer to judiciary as it involved constitutional questions and needed careful consideration so referred

H B 138—Amends the law in relation to roads and highways provides for payment of road tax in money or labor at $1 50 per day when the county court of any county shall so order. This was reported as a substitute for H B 53 but was not adopted

Evarts gave history of the bill He did not think the original bill could be amended and wrote a substitute

The bill was decided not in order on second reading as it was on the table

H B 1[illegible]—Transfers mint building at the Dalles to Wasco county referred to committee on claims

Senate returned H B 133 to increase the pay of assessor of Multnomah county with an amendment house concurred

H B 140—To provide for record of deaths

H B 141—For publishing acts of legislature ordered engrossed

H B 142—For relief of Chas Dimon referred to committee on claims

H B 144—To give lien to loggers, etc

[illegible] granted leave of absence

On motion of Mr Lee, house reconsidered vote just taken to concur in senate amendment to H B 133, it being shown that by a misapprehension the amendment cut down fees of assessors in Western Oregon from $4 to $3 per day house refused to concur and committee of conference was asked for

H B 14[illegible]—To provide for wagon road from Alsea valley to Alsea Bay

Scheiburg moved to indefinitely postpone

Hughes favored a fair show for the bill

Purdin said it was another little job to take something out of the visionary swamp land fund against which now $200 000 warrants were issued that the state was expected sometime to pay

Thompson said the gentleman was correct

Reed thought as the mover of the bill was not now in it would be courtesy to refer the bill to the committee on counties which prevailed

H B 149—To incorporate McMinnville considered engrossed,

H B 150—Penitentiary accounts to be itemized and verified under oath considered engrossed

H B 151—Fiscal year to commence August 1

Reed thought the bill left a gap of over a month that a retiring officer would make no report referred to judiciary committee

H B 1[illegible]—As to times of holding courts referred to committee on counties

H B 1[illegible]—Provides for publication of supreme court reports referred to judiciary committee

H B 181—To provide for state tax commissioner and equalization of taxes This is the same as S B 57 referred to ways and means committee

H B 157—For the protection of game and fish amending present law, referred to committee on counties.

H B 158—Legalizing sheriffs deeds heretofore made referred to judiciary committee

H B 162—To provide for the education of deaf mutes referred to committee on education

H B 164—For sale of swamp lands and making title to same referred to committee on public land

H B 165—To extend bounds of East Portland considered engrossed

H B 166—To enlarge powers and fix bonds of county surveyors considered engrossed

H B 166—For erection of state insane asylum and purchase of grounds for same

Reed moved to refer to special committee

Amendment moved to refer to ways and means

Hughes said ways and means had a good deal of business on hand and favored special committee

Gates favored reference to committee of the whole

Mr Speaker considered it necessary so to do

Reed thought it ought first to be in the hands of a friendly committee that might find what was necessary in the way of amendment thought it was necessary to take steps for the state to become independent and take care of its own insane It was based on the recommendation made in the report of the superintendent of the insane asylum

Ramsby urged its commitment to the committee of the whole for the purpose of losing no time

Townsend was not unfriendly to the bill and withdrew his motion to refer to the ways and means committee the bill was referred to committee of the whole

Ramsby moved to adjourn to meet at 7 30 P M

Grant said was summoned this evening on two committees

Gates was in the same fix wanted to examine affairs of penitentiary and the swamp lands thought it would be no gain of time.

Ramsby withdrew his motion

Hewitt thought nothing made by meeting at 9 A M as moved

House adjourned to 10 A M to morrow

CHICAGO Oct 4—Wheat—For November

The Daily Oregonian.

SATURDAY MORNING OCTOBER 1 1878

FROM THE CAPITAL

SALEM, Oct. 10 1878

It is not a pleasant thing to be a journalist and have to pitch into human frailties and show up the cupidity of human nature The most that can be asked of us is that we "nothing extenuate nor set down aught in malice" One cannot stop to consider private feelings when they are complicated with alleged public stealings

THE STATE PRINTING

What seems to ail the accounts of the late state printer is that he has followed the unholy precedents that have crept into the work from time to time until they have become an abomination The state is an individual whose rights its officers and servants too often seem to think they have no reason to respect and whitewashing committees have sanctioned corruption so frequently by glossing over the frauds of partisan pets that public stealing has in a measure become legalized The people have a vague idea that they pay too much taxes and that something is wrong but they can t help themselves and a forty days session of the legislature does not permit an honest and efficient investigation of public affairs and the results accomplished this session are an exception to the rule.

The evidence before the committee on state printer s accounts shows that the work is made so fat that it requires a deduction of ten per cent to equalize and correct the measurement That is only as to the composition, which the expert employed by the committee, Mr P H. D Arcy formerly a typographer and now a promising young lawyer in this city has ascertained by careful measurement taking the law relating to the subject and testing work by that standard. The space allowed in journals and laws between acts and paragraphs is often more than specified by the law which has unreasonably increased the cost The printing of bills, pending before the legislature has been especially overcharged and is liable to criticism throughout But the great discrepancy is said to exist in overcharge for paper and presswork. One item is specified where the charge was over $600 and was reduced to a little over $90 a reduction to one eighth the original and this is how it was done, as the craft already knows A ream of paper is 480 sheets—20 quires of 24 sheets each—a ream of book paper being of a certain standard size This the statute allows the printer so much a ream for, and it seems the printer has been for ever so many years past cutting up paper *into one fourth the original size*, and charging the state for 480 sheets of the reduced size what the law allows for the full size and weight This of course costs the state four times what it ought and is a deliberate fraud, and the case cited above shows that in one rather important instance the charge was made eight fold instead of four fold The state also pays so much a "token" for press work a token being 240 sheets and of course to be consistent, the printer had to charge for as much press work as he had charged paper so that in these two items the overcharge has been enormous, and perhaps not original with the late state printer but handed down to him as a swindling precedent. It is a pity the state cannot make itself whole upon the whole business for a dozen years past and it would be "a bonanza" to that extent In a few days I shall be able to give an abstract of the evidence before the committee, and a few features in it are rich and racy outside of the alleged discrepancies in accounts

OTHER INVESTIGATIONS

The committee to investigate the administration of state land affairs hold their sessions daily and have been engaged hearing the evidence of Gov Chadwick and Col Cann, without making any important developments but I am informed that the testimony of those gentlemen materially differs in some important particulars.

Your correspondent "Typhoon" went through the "organized offices" yesterday like an East Indian hurricane Gov Grover felicitated himself on his ability and great success in organizing the offices, and the gleam of light cast on his administration by late investigations not excepting the investigation of the aforesaid "Typhoon" resembles the crimson reflections sometimes used to wind up startling dramatic performances His administration was a drama that seems to need this same "red fire" to wind it up in proper shape. All the frauds overcharges of salary depredations on the fund for the blind school and that for common schools were initiated and successfully "organized" under his beneficent administration—beneficent to his followers—and the people should hold him sharply responsible for them Democrats unhesitatingly say that if Grover had been a candidate before the people two years ago he could not have been elected senator, and that in the light of the book of revelations now being compiled by this legislature he could not be elected for anything Some idol breaking is being done these times and the iconoclastic tendencies of this legislature are very healthy It is a fortunate thing for the state that we have a legislature willing to investigate Hon Wm Galloway, of Yamhill is on both committees to investigate the administration of state land funds and the state printing and seems to be worthy of the name of reformer The employment of Mr D'Arcy as expert to remeasure the state printing was a fortunate selection, as he is honest enough to take the statute and give it a strict construction and possesses the moral courage to insist on what is right

THE SENATE ON WOMEN'S RIGHT

Several bills have passed the senate that effects the rights of married women One provides that "any person" instead of any male person may vote at meetings of school districts which admits women who are taxpayers as voters upon school matters a very proper amendment to the existing law as women are capable of exercising a useful influence in that respect Also a bill has passed the senate that recognizes the right of married women to bestow their own property by will also a bill that guarantees to married women the control and possession of the property they owned at time of marriage as well as that they may have acquired by their own labor since marriage but holding the property of man and wife alike responsible for support and education of the family The house has received these bills kindly, but they have not yet reached argument and this body also has a pending bill of similar interest because it provides for the admission of women when duly qualified to practice in the courts of this state The star of women's rights is effulgent this session and most of these bills will probably pass

STATE PRESS ASSOCIATION

There was a meeting of publishers and editors held last evening in the parlors of the Chemeketa hotel attended by representatives of many journals at which a resolution was presented, for future consideration favoring the passage by the legislature of a law that will hold the press amenable for slander The resolution reads

WHEREAS The journalism of a state is an index of its culture intelligence and morality and should be the conservator of true principles and correct action and not the vehicle of unlicensed and unprincipled prejudice and slander therefore

Resolved, That the press association present to the honorable the legislative assembly of this state now in session that in our opinion it is advisable that efficient legislation shall be had that shall define the responsibilities of public journals and offer a check to undue license, and that spirit of defamation sometimes prevalent and which is always to be deplored as an injury to social progress as well as to individual rights. We desire the press should be held sharply responsible for any undue transgression against private rights and the sacred ties of family

The resolution met with general favor, the feeling of all being that everything possible should be done to elevate journalism and restrain and prevent reckless and irresponsible publications whose utterances sometimes result in tragedy There is a disposition in the house to pass such a bill, in the interest of public morality and decency and to induce journalism in our state to take high rank as a means of social and moral culture.

THE SCHOOL BOOK MONOPOLY

The house has up this morning H B 120, amending the school law in various particulars Among other objects it provides for a new deal in relation to text books in common schools The Bancroft monopoly has grown very odious, and the house seems to have an intention to have an expression from the county superintendents as to their choice and the will of the majority of superintendents is to regulate the series to be selected. This shall be repeated every four years It really seems as if the state ought to make good terms in advance with publishers in the interest of the people, who may in any event have to pay enormous prices for school books on which evidently unreasonable profits are made by somebody

Bancroft s monopoly has been a great profit to that house and his agent is on hand as usual to protect their interest and the young man has now been so regular an attendant on the sessions of Oregon s legislatures that I have been looking for a motion to pay him mileage as a reward for his disinterested presence.

NOT IN EASTERN OREGON

I see Hon A H Brown ex state treasurer in the corridor of the capitol, which shows that the information that he had left for his old home in Eastern Oregon is incorrect. He is not the man to leave when investigations are in order and so far as I hear no imputation attaches to him as to improper conduct of his department

SATURDAY MORNING, OCTOBER 12, 1878.

THE PLUMMER FRUIT DRIER.

How shall I make a fortune? Why, if you are a farmer and have an orchard, get hold of one of the

CELEBRATED PLUMMER FRUIT DRIERS

and your fortune is assured. Just think of it, in primitive New England days the frugal housewives and their thrifty daughters used to buy nearly all the family groceries by peeling apples by hand and drying them around the kitchen stove or in the sun. A very slow and tedious process, to be sure, but still it was done. But presto! change! See what human ingenuity has devised! The Plummer Fruit Drier is to the fruit drying process what the sewing machine is to the household sewing, what the gang plow is to the ranch, what the spinning jenny is to the mill. It is the great labor-saving machine, the great money-making invention to the fruit raiser.

WHAT IS THE PLUMMER FRUIT DRIER?

Briefly, it is a large, well contrived construction, capable of holding some fifteen or more frames or trays, together with so many square yards of galvanized wire cloth on which to spread the fruit. This frame may be set in the orchard, or any other accessible or convenient place, and it can be operated by a couple of boys or girls, and is guaranteed to dry from one and a half to two bushels of apples per hour. Just for a moment stop and compute the worth of such a machine in a household! We are not speaking now of its labor-saving advantages. We refer strictly to its

CAPACITY FOR MONEY-MAKING.

It is a fact that over three hundred of these driers are now in successful operation in the State of Oregon and Washington territory. The parties using them are drying from $300 to $1,500 worth of fruit each year, and using only the regular force of labor in the family at odd times, or in stormy weather. Is not this a source of revenue worth looking after? Besides this, the fruit dried by this process by these same people has been

AWARDED THE GOLD MEDAL FOR EXCELLENCE

by the Oregon State Agricultural Society. The flavor, color and condition of the fruit is unsurpassed. It has been a crying sin and shame that so much delicious fruit has gone to waste. Heretofore there has not been facilities for getting it to market, and it has been left to decay upon the ground. What a waste! Now it can all be made a source of revenue.

THE CHILDREN CAN BE SET TO WORK,

and thus two great ends may be conserved at the same time, namely, the fruit can be made to yield a handsome income, while the children are learning the grand wholesome lesson of thrift, industry and economy. We repeat it: Every farmer who has fruit should by all means have one of these incomparable Fruit Driers. And it is to be remembered that there are,

NONE SO GOOD IN ALL RESPECTS

as the Plummer. It has received the most flattering credentials from all parts of the country. It would take a solid column to enumerate the different well known names whose credentials stand for the Plummer Fruit Drier. We have omitted to state that there are different sized driers. The Factory Drier is much larger, and is capable of drying six bushels of fruit per hour. It requires four hands to work this machine. These machines are peculiarly adapted to the preserving of Potatoes by the "Plummer Process." They have already a world-wide celebrity. Green Corn, Beans, Tomatoes, and, in fact, all sorts of vegetables and fruits can be successfully treated by this same process.

FULL INSTRUCTIONS ARE GIVEN,

and those who visit the Fair should by all means examine these Driers for themselves. The most polite and courteous attention is paid to all, and the genial consideration given to all inquiries makes it a delight to ask questions. Everybody should make it a point to see the celebrated Plummer Fruit Drier. Every fruit-raiser should study his own interest by purchasing one of them. The investment would prove as rich as the Bodie, and more permanent.—*S. F. Bulletin.*

The flattering testimonials to the operating and work done by the *Plummer Fruit Drier* continue to pour in upon the inventor. No other machine compares with it in *cheapness* and the *effective manner* in which it works. The eighty cases of fruit recently sent to the great *Paris Exposition*, the telegraph announces was awarded the *Paris Medal*. This, together with the great *Centennial Medal*, that was awarded at Philadelphia in 1876, and the Gold Medals of the State of *Oregon* in 1876 and 1877, only shows the appreciation of this great invention by the public at large. *For economy it has no equal.* Oregon has such a number of these Driers in operation that she is enabled to export a staple article of dried fruit unsurpassed by any in the world, thereby creating a demand that is continually increasing in importance. The fine flavor which the fruits of this region contain, is all preserved by this process, making them equal to fresh fruit, destroying the toughness common to dried fruits, and impervious to all insect life, making it perfectly safe for the merchant to invest at all seasons of the year without fear of having it destroyed by vermin. Fruit dried by the *Plummer process* may be kept for years and yet retain all its nutriment and nourishing qualities, and will become a great source of revenue to any state where it may be introduced. Everything that is preserved by it is *absolutely pure*, as no chemicals are used in the curing of *Fruits, Fish, Meats* or *Vegetables.*

The Driers have all been manufactured up to this time in Oregon under the supervision of *the inventor*, and every machine properly set, and purchasers fully instructed in its operation and in the preparing and packing of fruits. I ask the fruit-growers of Oregon to investigate this process, and although all other Fruit Driers have been partial failures financially, this one has proven itself a grand success in three hundred and fifty distinct trials. Do not let this year's crop pass without a full investigation of its merits, and then purchase before you lose another season so valuable to yourself and family. Address,

W. S. PLUMMER, E. Portland, Ogn.

VARIOUS CAUSES—advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light and red hair to a rich brown or deep black as may be desired. It softens and cleanses the scalp, giving it a healthy action, and removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hair, to which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is specially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous. For sale by all dealers.

CALIFORNIA
ROOT TEA!

The Reliable Cure for Chronic Complaints of Liver and Kidneys.

THE ONLY THOROUGH BLOOD CLEANSER. The most pleasing, grateful and satisfactory Strengthening Balsam known, constantly effecting surprising cures of wasting or debilitating diseases and complaints arising from weak or impure blood, feeble circulation or impaired digestion, when all modes of treatment fail. Is of great benefit in threatened or actual consumption and heart disease, owing to its peculiar and great influence on the circulation. For the ills and weaknesses of women it is Nature's most suitable and reliable remedy.

LIVER--KIDNEYS.

Its regulating and strengthening action on these organs is different to and more desirable than that of any article heretofore in use; for indigestion, biliousness, etc., as a tonic, anti-malarial, etc., it is unequaled, while in chronic complaints it gives relief when all other remedies fail, and is frankly acknowledged to be the *only* cure for many chronic complaints of a complicated nature.

CATARRH,

The success of the CALIFORNIA ROOT TEA in curing Catarrh is proverbial, and surprises many who do not understand the nature of this terrible disease, which in most cases can be permanently cured only through the blood by a thorough course of this vegetable remedy, conceded to be the only thorough and permanent blood cleanser known, a course of it completely eradicating for all time the most virulent types of blood and skin diseases, rheumatism, etc. All who use it, leading druggists and physicians gladly attest its great sterling worth.

Sold in its truly vegetable form, in packets at $1; each packet makes a quart of rich balsam, of which the dose is two spoonsful three times daily, making its cost much less than other medicines. Make like tea or put in wine, etc.; pleasant to take when nicely sweetened. Sold by druggists and country merchants. N. B.—Until further notice it will be sent by express or mail to any address on receipt of Express or Postoffice order, one packet $1 or six for $5 00.

DR. PAUL M. BRENAN.

His Wonderful Success
IN THE TREATMENT OF ALL
Chronic and Private Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN the *Medical Lecturer*, and read his sign on his door.

This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin, in registered letter through the Post-office or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union. Address DR. J. F. GIBBON, Box 1,957, San Francisco.

SATURDAY MORNING, OCTOBER 12, 1878.

THE NEW WATER BILL.

We are favored with a copy of the revised bill for an act to supply the city of Portland with water. It provides that bonds may be issued to an amount not exceeding four hundred thousand dollars, payable in twenty years, with interest at seven per cent. per annum. It designates Messrs. H. W Corbett, W. S. Ladd and A. P. Ankeny as commissioners, requiring bonds from each to the amount of twenty-five thousand dollars, and confers upon the city the right "to take, appropriate and hold, by gift, purchase or otherwise, any real property necessary or convenient" for the objects set forth in the bill. One of the commissioners named is to hold office for the term of two years, one for four years, and one for six years; and at the expiration of the term of office of such commissioner, or if for any cause a vacancy shall occur, the two remaining commissioners shall appoint by and with consent of the common council. In case of vacancy in the office of two commissioners at the same time from any cause whatever, then the mayor shall appoint such commissioners with the consent of the common council of the city.

It is manifest that this arrangement will within a short time throw the management into partisan hands. About the most unfit body that could be selected for the responsible duty of appointing commissioners is the common council; and the objection is equally strong against allowing that body to exercise supervisory power over those appointments. All who realize how a common council is elected, and with what partisan, personal and other influences it is swayed, will concede at once the force of this objection. We highly approve the provision of the bill which limits to actual taxpayers the right to vote on the question of issuing the bonds; but this good provision will in the end be practically nullified by allowing to the common council, which we presume no one will pretend is elected by the taxpayers, the power to obtain virtual control, after a short time, of the water works and their management.

The third section provides that "whenever the city is unable to agree with the owner of any real property, water and water rights, which it is authorized to acquire by this act, it may have such property, water or water rights, or either of them, appropriated to its use for the purposes of this act, by means of an action in the circuit court of the proper county, in the manner prescribed for the appropriation of lands to use of private corporations, in title three, chapter seven, of the general laws of Oregon."

If the city should desire to acquire the property of the present water company this would be a most unfair way of doing it, for two reasons. First, the nature of the case is such that the only method of arriving at a just valuation of the property would be through an investigation by competent engineers rather than by a jury. Second, under this section the city might take a portion of the property, as the streams and reservoirs, and refuse the remainder, which would work great wrong. The principle of justice should govern in every case. If this city is going to take the property of the water company it should be willing to pay a fair valuation, to be ascertained by the only just method through which such valuation can be found. If part of the property should be taken at a value fixed by a jury, what would the remainder be worth? If we are going to deal with the company at all let us deal with it equitably. The circumstances are such that the city's own interests make it almost necessary in dealing with this subject to take into consideration the fact that a water company is now in actual operation here. It would hardly be profitable to the city to start in for the erection of works in opposition to this company, nor should it be willing to take part of the property and leave the balance quite worthless. It should never pay less nor more than a fair valuation, if purchase can be effected at such rate. But if no terms can be made, then the city must take other action. We believe that citizens generally would be satisfied to have the whole question entrusted to the persons who are named as commissioners, not wishing to see matters remain as now, nor desiring to subject anybody's property to confiscation.

A VALUABLE SPEECH.

One of the best and most timely speeches we have recently seen is an address delivered by Senator Bayard of Delaware, at *Pimlico*, Maryland, on the 26th September. Mr. Bayard is almost the only Democratic senator of national reputation who has had courage to withstand the storm of fury and folly on labor and and financial questions which has been sweeping over the country. His utterances have always been of the soundest and most positive kind he has neither minced his words nor held his peace through fear of losing popularity and injuring his chances for political preferment. In his recent speech he condemned the proposed issue of "fiat" money as a return to the age of alchemy when men spent their lives and wasted their means in the fruitless attempt to transmute baser metals into gold. Alchemy and the black arts of the magician have disappeared with the spread of intelligence, and the American farmer who knows that value can only be produced by steady, continuous manual labor, has but to use his own powers of thought to be convinced of the falsity of that system of currency which holds that pieces of paper, upon which is printed a promise to pay, never to be redeemed, possess in themselves intrinsic value. And the danger of adopting any such worthless material as absolute money is greatly enhanced when it can be multiplied indefinitely by any accidental majority of congress. This he pronounced a more mischievous delusion than the "magic" of our forefathers, because it will unsettle values, destroy our national credit, restore the era of inflation, and undo all the good that has been done by the last ten or twelve years of economy and debt-paying. The farming community and the laboring interest generally, the senator reminded his hearers, will be the worst sufferers by this fallacy, which he described as a scheme to lessen public reverence for pledged faith, to weaken confidence and to postpone indefinitely the payment of public engagements according to their terms. The speaker avowed his confident belief that the sober second thought of the American people will discard the deceptive doctrine that a mere printed government certificate can possess inherent and intrinsic worth, be adopted as a permanent standard of value, and perform all the functions of a currency which stands upon a gold basis. On the labor question he had equally sound views to express. The large body of our fellow countrymen who are unemployed and in want, he said, are to be found in the cities, discontented and indulging a feeling that is at war with society. Political agitators win the ears of such men, teach them agrarian notions and threaten the country with violence. The tendency of our population is to city life, and this should be counteracted by dispersing the superabundance through the country. "When I think of the fair and fertile peninsula on which I live," said the speaker "and of which our dear old 'Eastern Shore' forms part, I wish from my heart that all those strong and willing hands of labor could be transported and permanently established on Maryland and Delaware farms." He had no fears of over-production, so long, at least, as the mad ambition of European rulers turns that continent into a vast camp or battle field, and diverts the energies of their subjects to mutual destruction, instead of allowing them to follow the industries which create abundance and promote happiness. One obvious cure for much of the distress we now witness in cities and manufacturing centres, will be found in the return of the population to the culture of the soil. "American farms today," he said, "are much below their intrinsic value, because the compensations and advantages of country life and agricultural occupations are not duly weighed and appreciated." If all our public men had the honesty and courage to talk in this manner the public mind would soon be disabused of many pestilent and dangerous errors.

The elections so far show a net loss to the Republicans of several members of congress. In Ohio the loss is due to the Democratic gerrymander; in other states mainly to the greenback movement. So far the loss may be stated thus: In Maine two, in Ohio three, in Indiana three, in Iowa two, in Oregon one. There is a gain of one in West Virginia and one in Colorado. The loss therefore is nine. It is certain that the Republicans cannot control the next house, but the balance of power may be held by the "Nationals." The south will hardly send so solid a Democratic delegation as heretofore.

Mr. Apperson has introduced in the senate a bill to punish vagrants and tramps, and Mr. Hendricks has introduced a similar bill in the house. Either of the bills, if enacted, would discourage vagrancy and diminish the vices and crimes that are attendant upon it.

Last Tuesday's elections virtually let the bottom out of the great "National" party, and Butler begins to quake as he sees his prospects recede. It is just beginning to dawn upon him that even the fools and knaves combined may not make a majority.

CALIFORNIA SILK

Manufacturing Company,

ROBERT R. YATES, Agent,

585 Market st., cor. Second, San Francisco.

MESSRS. WM. MACDONALD & CO. HAVING retired from the Sales Agency of this Company, the business will hereafter be conducted in the name of the CALIFORNIA SILK MANUFACTURING COMPANY, on the same premises as above named. Mr. ROBERT R. YATES, late with Messrs. Murphy, Grant & Co., will act as Agent.

New Machinery has been added to our factory and our stock on sale has been and will be very much enlarged.

Our Standard Goods are now ranked fully equal to the best goods made in the United States and are far superior to the average imported. We also make the cheaper grades to meet the demand for such goods.

Having a Factory at South San Francisco always at work, and unlimited facilities, we are able to keep our stock in store always fully assorted, and can furnish any silk required at short notice, from stock or made to order. This gives us great advantage over importers in supplying customers with any desired color or kind of Silk in the line of **Machine Twist, Embroidery, Fringe, Tram and Sewing Silks.** Dealers buying of us need to carry but small stocks, thus saving interest and shop wear on goods.

We absolutely Guarantee our Standard Goods to be equal to the best and most celebrated silks made, and the general favor with which they are now regarded by consumers and dealers, selling as we do to nearly the entire trade, proves our assertion to be true, and should any goods be found not as guaranteed we will willingly take them back.

Attention is drawn to the fact that besides our regular standard goods, we have made, to meet a demand for cheap grades, a second quality which is sometimes mistaken for the former. We shall in future use different brands for the lower qualities, though some time may elapse before a complete substitution of names can be made. Lists of our products with prices can be obtained by mail.

Our manufacturing business has been built up with much labor and sacrifice during the last seven years, and after overcoming great vicissitudes has achieved complete success as a California Industry.

Employing as we do nearly One Hundred American and European Women and Girls,

Giving the best of Silks made at the lowest prices for corresponding grades, and affording better facilities in stock variety for selection than any other Silk Agency, we feel that we are entitled to the patronage and preference of all who desire to AID HOME INDUSTRY.

CITY.

Alleged Smugglers Arrested—Captain Edward Richards, of the British bark Cyto, which arrived here a short time since from Sydney, and W Jones the steward on the vessel have both been arrested on a charge of smuggling Both parties were brought before U S Commissioner Lamson for examination Jones, the steward was examined and held to appear in the sum of $500 Capt. Richards asked to have the examination postponed until 10 o clock A M to-day to enable him to consult his counsel In the meantime the defendant s bail was fixed at $2 500 The charge is a very grave one, for if it is sustained it will not only subject the captain to a heavy penalty but involve the forfeiture of the vessel

Clackamas Fishery Damaged—An exchange says "The trap arrangement across the Clackamas river at the fishery was washed away or made unserviceable during the late rise of the river We do not know that there is any permanent injury done to the fish-catching industry but suppose this will cause a delay Up to the time of the accident we understand there has been about 2 500 000 eggs secured The accident was unforeseen as the trap was supposed to be able to stand about six or seven feet rise, where there was only two

Improvement of Nineteenth Street—The work of improving Nineteenth street just back of Bishop Scott s grammar school from its intersection with B to Good Samaritan hospital has been in progress for some time and is now about completed The street has been graded and drained and a 16 foot macadam roadway has been built which makes a good driving way during all seasons of the year It is of special convenience to persons having occasion to visit Good Samaritan hospital.

THE STATE FAIR.

Eighteenth Annual Exhibition of the Oregon State Agricultural Society.

[illegible] FROM THE GROUNDS—THIS [illegible] —HALF'S POSTPONED

We reached the grounds this morning in the rain and found everything in a very quiet condition except preparatory work which is going ahead as if fair weather was assured. The mud is becoming deeper and deeper and it would take more than one day s sunshine to dry the ground now The live stock is kept closely stabled the attendants are huddled in the tents and all visitors who were contemplating the ground this day have got under shelter of the tents to day having business have ventured to come in spite of the severity of the weather The races for this afternoon and to morrow have been postponed until Monday after which the fair takes a out all the interest of the two remaining days of this week Even moderate comfort is almost impossible on the Fair ground except in some of the private tents which have floors and stoves are found and a reasonable degree of warmth can be obtained We presume there have not been a hundred new comers on the ground to day The society will be heavily unless it soon ceases very soon The booth keepers back of them and showmen are all complaining about the weather and the lack of business Even the [illegible] company playing at Reed s opera house in Salem had a very small audience which we were sorry to see as the troupe is really worthy of a more liberal patronage and there are enough people in Salem to fill the house every night

The condition of the track is bad—as it has been and though it is not allowed to be [illegible] are more than the least possible it cannot be in even a passably good fix before the middle of next week The race yesterday was under much difficulty and the time made was better than was expected The horsemen were generally disappointed and though there was no charge of unfairness yet there was some swearing a good many of the boys being left without money to buy pools on future contests They did not expect to win much on the race yesterday pools on Three Cs selling at too much odds but they thought they might make a few dollars any to spare They had a dead thing Our report of the race was erroneous as to the animal winning most closely with Three Cs on the first half of the dash It should have been Alice Corneille but the result was the same as Lottie Knight was close in the rear and on the last quarter did the lively work mentioned by which she won the race

THE LOSS

is the greatest loss by reason of the unpropitious weather being already largely in debt and having gone to unusually heavy expenses in preparing for the fair this year The financial heads of the society may see their way through but it is too much for an outsider The debt at present is said to be over $20 000 and this fair will add several thousands more if we cannot have sunshine and that very soon There is more than the usual amount of talk about holding the fairs earlier in the season and though the farmers might be too busy to come in great numbers and as for two weeks three days of good weather would be more profitable than ten of rain and mud like this

Considerable progress has been made in the embellishment and management to

THE PAVILION

The different divisions however fill up slowly owing to the continued rains which prevents the moving of articles designed for exhibition. In division B we find an exhibit by Dr [illegible] Matteson of twenty six varieties of Oregon woods collected by himself in Coos county Of those peculiar to the locality are shown specimens of the Port Orford cedar (*L baccata* D [illegible]) with its bark and foliage the myrtle (*O olivaeformis Californica*) with fruit (seed) and foliage live oak (*Quercus Chrysolepis*) with acorns and foliage laurel *Rhododendron Ma[illegible]* and mountain lilac (*Ceanothus Thyrsiflorus*) These are all evergreens, the last two flowering shrubs and suitable for ornamental trees The wood of the laurel is peculiarly adapted to engraving purposes Dr Matteson exhibits also black sand from the mines near the mouth of the Coquille river and shells taken from a shaft 300 feet below the present tide level of Coos bay As curiosities he exhibits a chair made of the wood of the myrtle and laurel the arms rockers and back being formed of natural crooks nicely polished and a wooden sugar bowl made and used by the first miners on the Coquille river as early as 1852 or 53.

His wife exhibits quite a collection of shells and agates gathered at the mouth of the Coquille and several cages of native birds, exquisite singers of two varieties, the black headed grosbeak and the tanager Division Q contains some excellent specimens of what Oregon can do in the line of vegetables P M Rinearson of Clackamas county exhibits ninety varieties, all mammoth productions Among these are fifteen varieties of the potato carrots that produce 1 683 bushels to the acre entered to compete for the best half acre premium corn (white flint) that yielded 148 bushels to the acre onions (Yellow Danvers) 1 011 bushels to the acre rutabagas, 57 tons to the acre and beets of the mangel wurzel variety 3 tons to the acre Squashes are exhibited in this collection in nine varieties corn stalks 12 feet high and turnips five weeks from the seed that have attained astonishing dimensions Half a dozen squashes raised in Salem by L Dielman aggregate 1 208 pounds in weight the largest weighing 237, and the smallest 180 pounds

The entries in grains and fruits are not as yet extensive but such as appear are entitled to special mention George Belshaw of Lane county exhibits five varieties of wheat in grain and seven in stalk One of these last of the Red Cliff variety, shows 83 heads the product of a single grain H W Prettyman of Multnomah county, exhibits corn in three varieties and enters in fruits thirty two varieties of apples, five of pears and one each of peaches and quinces John Simpson exhibits a variety of Aullep oats A K Williamson a peck of rape seed suitable food as he avers for every animal from a canary bird to a horse P M Rinearson three varieties of white beans and one each of peas and grass seed In fruits D D Prettyman of Polk county has as yet the finest though not the largest exhibit In the six varieties of apples which he displays are shown the finest specimens we have ever seen both in size and beauty Some display is made this afternoon in the ladies department but the space allotted is yet comparatively vacant so we defer special mention In the floral division the display is truly grand and the space is already well filled The superintendent of this department has not yet arrived but an effort will be made to get all arranged to morrow Exhibitors having space in the art department have made considerable showing and competition here bids fair to be lively Several displays of jewelry are made the most attractive as yet being that of the abalone jewelry by R W Jackson The paintings that usually render this division so attractive have not as yet been placed and in fact everything in and about the pavilion is in a condition of incompleteness that is protracted and rendered gloomy by the steady rain The attendance is slightly improved to day but must continue thin until a decided change takes place in the weather

MONDAY MORNING

LETTER FROM

CHINA AND JAPAN.

Miscellaneous and General News.

San Francisco, Oct. 10.—The steamer *Belgic* has arrived with Hongkong dates to September 12th, and Yokohama dates to the 22d.

Difficulties between foreign Christian missions and native fanatics continue in the province of Fu Kien. Churches and schools were burned down by rioters. There are dangerous mobs in the district of Chusan, in consequence of oppressive taxation. At Ningpoo 200,000 peasants threaten to rise. Officials have only a few thousand troops in the neighborhood. Several lives have already been lost in desultory conflicts.

F. S. Huffam, deputy registrar of the supreme court at Hongkong, has absconded to the Portuguese colony of Macao with some $70,000 officially in his hands. For some time arrest was impossible, owing to the absence of an extradition treaty between England and Portugal. Special orders for rendition were finally telegraphed from Lisbon, and the offender is now on trial.

D. H. Bailey has arrived at Shanghai to assume the office of vice consul general.

Julius Stabel returns to his own consulate at Kob, Japan.

A proposal is urged to dispense with the English garrison at Hongkong and replace it with a Chinese regiment.

It is reported that Kuo, now Chinese minister to England and France, is about to be replaced by a young nobleman named Tseng Chi Ti, an advanced liberal. Lin, envoy to Germany, will also return and be succeeded by charge de affairs, Li Chang Pao.

The Japan annual budget for the fiscal year, July 1878 to July 1879, was issued early this month. The estimated revenue is little over 55,000,000 yen or dollars; estimated expenditure precisely the same. The chief reliance for income is a land tax of over $40,000,000. The principal expenditure is the reduction of the national debt, now nearly $363,000,000 due at home and $13,600,000 due England. The great bulk of the domestic debt is on account of issuing bonds last year for permanent redemption of annual pensions to nobles and gentry. The finance minister now proposes to undertake the serious task of liquidation at the rate of $20,000,000 annually, so that if persevered in it will all be wiped out in 28 years. The financial outlook is regarded as favorable on the whole, if peace is maintained and internal resources are developed.

The emperor has reached Hiigata, the northern limit of his tour, and will presently turn southward, visiting the ancient capital, Kioto, and returning to Tokio in October.

H. W. Denison, vice consul general at Yokohama, has resigned his office and entered the practice of law. Few competent Americans can afford to fill posts of this description in the east on present salaries.

The heaviest rains and floods in many years fell within the 15th and 20th of September. Rice crops were greatly damaged, bridges carried away, and railway traffic stopped for two days. A few lives were lost.

Signs of disturbance among the soldiery reported by last mail, are now entirely ceased.

The American bark *Justine H. Ingersoll* arrived from New York September 10th. During the voyage on July 6th, the chief mate, named Gaston, was stabbed and killed by a seaman named Lump, who is now on trial here.

Schools have been established by the Japanese government on Bonin Islands in the Pacific ocean.

ARIZONA.

Gov. Fremont's Realm.

San Diego, Oct. 10.—A *Union* special from Tucson, A. T., last evening says: Al Boger, who some months ago murdered M. A. Sweeney in San Pedro, has just been brought back here by the officers, who obtained him in Sonora on a requisition from Arizona. The Adams and Finlay murderers have not been surrendered. Gov. Fremont's first important official act was the issuance of an election proclamation.

THE COURTS.

Portland, Oct. 11, 1878.

U. S. DISTRICT COURT—DEADY, J.

Louis Salam vs the Cape Breton—Decree for libellant for $73 and costs, and 10 days allowed to appeal to circuit court.

United States vs Thos. Jennings—Verdict of not guilty and defendant discharged.

Court adjourned until 10 A. M., Tuesday, Oct. 15, 1878.

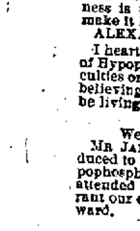
COUNTY COURT—RICE, J.—WIBERG AND HOLBROOK, COMMISSIONERS.

COMMISSIONERS.

In the matter of the petition of John A. Hurlburt and others, for the location of county road from the corner of Sections 2, 3, 10 and 11, T 1, S 4, E to the Columbia river—Report of viewers and surveyor read second time in open court, and road ordered located and established in accordance therewith.

Court adjourned without day.

Ladies! note the display of cloaks and suits at Harris' Emporium of Fashion.



REV. DR. CLARK writes:

I have much pleasure in saying Fellows' Hypophosphites *improved my general health amazingly.* It gives a clear skin and healthy countenance, but to know its virtues it must be used, and were it within the reach of all classes, I believe it would be used universally; yes, by the well to renew their age, and by the sick, to make them well. It makes an old person ten years younger. "This witness is true." Would that I could more widely make it known for its virtues.

ALEXANDER CLARKE, D. D., Amherst, N. S.

I heartily recommend Fellow's Compound Syrup of Hypophosphites to all troubled with any difficulties or diseases of the lungs or nervous system, believing that had I not used it I would not now be living. HARRIS COFFILL, Windsor, N. S.

Consulting Office for Consumptives, Western Medical Institute, Cleveland, O.

Mr. James I. Fellows—*Dear Sir:* We were induced to prescribe your Compound Syrup of Hypophosphites by Dr. McMaster, and its use has been attended with such satisfactory results as to warrant our employing it largely from this time forward.

TO THE GENERAL PUBLIC.

WE WISH TO SAY THAT CANCER CAN BE cured without the use of the knife or the loss of blood, a proof of which we would respectfully refer the afflicted to the honorable names attached to the following certificates—not foreign or irresponsible names, but your neighbors and friends, with whom you may consult and advise, and by this means assure yourselves whether or no there was any quackery, trickery or humbuggery practiced in their cases. We could refer to many other cases treated in this valley, but deem it unnecessary. Also to a number of cases treated years ago in the Western States and California. Birth Marks and Wens removed. Tumors and Chronic Sore Legs cured on the same principle as Cancer, to wit: No payment is required until a cure is effected. Examinations and consultations free. The undersigned being considerable of the time away from home on professional business, may be consulted by letter at Salem, Oregon.

WM. GREENE.

Salem, Oregon, Aug. 23, 1878.

I hereby certify that Mr. W. Greene, of Salem, Oregon, removed a dark spot or birth mark on my daughter's face. It was taken off without the use of the knife or loss of blood. It was on her face from her infancy. It was covered with coarse whitish hair near half an inch long. B. F. WARD.

Salem, Oregon.

This is to certify that Mr. Wm Greene of Salem, Oregon, treated my wife for cancer in December, 1877. The treatment was without the use of the knife or loss of blood. The cure has every appearance of being permanent. B. F. WARD.

Salem Oregon.

This is to certify that Mr. W. Greene, of Salem, Oregon, treated my son for cancer in December, 1877. The treatment was without the use of the knife or loss of blood. To all appearances the cure is permanent. D. C. CRESWELL.

Sheriff's Office, Dallas, Polk Co., Ogn.

This is to certify that Wm. Greene, of Salem, Oregon, treated my brother, H. J. Hall, and his wife, of Buena Vista, Polk Co., Oregon, for cancer, and to all appearance the cure is permanent. The treatment was without the use of the knife or loss of blood. The operation was performed in January, A. D. 1878. I would heartily recommend Mr. W. Greene to all thus afflicted. L. M. HALL, Sheriff of Polk Co., Oregon.

Fruit Farm, Marion Co., Oregon.

To all whom it may concern: I hereby certify that my mother had a cancer on her face just under the eye for two years, and it was growing very fast; she employed Mr. W. Greene, of Salem, Oregon, November, 1877, and he removed it in just one week without the use of the knife or loss of blood, and with but little pain, and to all appearance permanently cured. Also that a daughter of Mr. J. S. Vaughn, of Butteville, Marion county, Oregon, had a cancer in the corner of the eye, which Mr. W. Greene took out at the same time, with complete success, and is well. I do recommend him to any person that is afflicted with cancer.

Note.—Both the above cases were charity. J. C. GEER, Ex County Clerk.

Peoria, Linn County, Oregon.

This is to certify that Mr. W. Greene, of Salem, Oregon, treated me for cancer in December, 1877. It was on my nose and of several years' standing. It was removed without the loss of blood or the use of the knife, and to all appearance the cure is permanent. JOHN McCOY, Ex County Commissioner.

Amity, Yamhill Co., Oregon.

I hereby certify that Mr. W. Greene of Salem, Oregon, treated me for cancer February 1878. It was on my face and of ten years' standing. It was cured without the use of the knife or loss of blood, and but little pain. E. C. WILLIAMS, Ex-County Commissioner.

HOUSE FIELD DAY.

SALEM, Oct. 10, 1878.

EDITOR OF THE OREGONIAN:

Yesterday was quite a Field-Day in the house, occasioned by calling up land house bill No. 135 for a second reading. Under the suspension of the rules, the bill upon motion of Thompson was called up out of its regular order and read a second time. Thompson of Multnomah moved its reference to the land committee, which was resisted by Gates, chairman of the judiciary, who insisted that it be referred to the judiciary committee. The discussion upon the merits of the bill and the propriety of its reference to either of said committees became quite general and animated, and occupied much of the time of the house.

Speaker Thompson left the chair and made an eloquent speech in favor of the rights of the people and against the iniquity of the mismanagement and past land legislation of the state.

Purdin moved a select committee of five, which Thompson of Multnomah accepted, to consider the bill and report at any time. It became quite evident as the discussion progressed, that the friends of the people were arrayed on one side and the representatives of the land grabbers on the other. For the same reason it appeared quite satisfactory to the majority of the house that the bill ought not to go to the judiciary committee, notwithstanding a majority of its members favored such reference. Among the rest was Grant, who brought up the rear, and made the objects of that committee quite apparent, and thereby lost its reference to that committee.

The bill was finally referred to a special committee composed of Purdin, Scott, Gates, Weatherford and Grant. The majority of the house felt that the bill had fallen at least into the hands of its friends. It is to be hoped that this committee will at once consider and report it back to the house at the earliest moment, for the senate has yet to consider it and there are only seven working days left before adjournment.

The people of the entire state are now watching the movements of this legislature on this bill, and woe to that member who shall betray the pledges made by him to the people for reform, but by his acts and his votes plays directly or indirectly into the hands of the land monopolists. It is quite evident that the land lobby is in full force; although many of them may not work openly, their emissaries are putting in quiet but diligent work. Parliamentary tactics and all sorts of means are likely to be resorted to against this bill in the house and, failing there, in all they must, the lobby will then turn its attention to the senate.

This state has great reason to be proud of its present senate, irrespective of party, and while the public will only scrutinize the acts and votes of its every member, there is no just ground for supposing but that every one will promptly respond to the just demands of the people and enact a law which will have a tendency to stop the speculation of the state selling land before she herself has got a title thereto, and which proposes to sell the lands that she owns in reasonable sized bodies.

FAIR PLAY.

The Pennsylvania railroad is now carrying grain and general merchandise east and west as it has for years. Traffic has reached such proportions on this and other roads that the supply of freight cars is insufficient for it. This is one of the sure signs of better times.

AFTER YEARS OF TESTS IN DIFFERENT climates, this preparation is acknowledged superior to any other in use. We apply it to tin or shingle roofs, leaky awnings and porches. It forms a heavy elastic coat, does not crack and peel off as ordinary paint. Stops all leakage permanently, is proof against moss, sparks, coals of fire, or water.

Parties interested may examine our work on Odd Fellows Temple, Alisky & Hegele's buildings, and others. Unquestioned references in this state.

SATURDAY MORNING OCTOBER 12 1878

RELIGIOUS MOVEMENT AT ALBANY

ALBANY Oct 9, 1878

TO THE EDITOR OF THE OREGONIAN

The Evangelist H W Brown has been conducting a series of gospel meetings in this place for several days past The interest is constantly increasing, and many persons are inquiring the way of salvation His afternoon Bible readings are especially good. They have a tendency to break down all the ill prejudices which so exist between members of different churches and enable them to meet upon the broad platform of God's word All good people will encourage these meetings Those who are wedded to their prejudices will do all they can to injure them Why is it that the newspapers of Oregon are so derelict in keeping people informed upon the current religious news of the day? First class newspapers of the east make this matter a specialty I will mention the *Times* and *Tribune* of Chicago Your Christian readers want to read something in regard to the progress of Christianity in our state as well as long articles concerning fraud and corruption in high places What if the editors are not Christians? You write for the people and to the Christian people of Oregon the progress of Christianity is of greater importance than anything else

Mr Brown is doing a work in Albany which we have long needed He does not come for money at least has not asked for it I write to your paper so that I may ask the co operation of all Christian workers everywhere in this cause. We will have good things to report from this place soon Hundreds of people attend these meetings Men and women are being awakened who have always been infidels We cannot foresee the result but we anticipate wonderful things because we know that God is with us and that it is His work A

PARTY TENDENCY TOWARD THE TRUE POSITION

[From Harper's Weekly]

It is in vain that Republicans and Democrats fence and evade upon fictitious questions and unreal traditions the commanding interest of the hour is financial and the two parties stand before the country one for honest the other for dishonest finance. This must of course be the decisive consideration in the congressional elections The discussions of the campaign must be therefore elementary, and it ought to be one of the most instructive of canvasses The A B C of finance as Professor Newcomb calls his clear and admirable primer of the subject must be taught in every school house and assembly district The great mass of voters have thought little upon the subject They have seen for more than half a generation paper money only and they have heard it extolled as the glorious and gallant currency that carried us triumphantly through the war saving union and liberty They hear the denunciation of bondholders as privileged aristocrats who are free from taxation They know few of the facts They are at the mercy of the unscrupulous statements of demagogues and have no answer to the gibe of the shop and street They are to be helped in the contest not by recondite arguments but by plain and simple explanations They are puzzled by what one of the western voters in a letter to us calls the mysterious phrases in which the discussion is carried on Gradually conscious of their want of understanding of the subject they conclude that nobody else understands it that one man is as likely to be right as another and that their sensible course is to go for the man who promises the most money It is for such reason that the speeches of Mr Garfield, of Mr Grow of Mr Harrison and of Mr Blaine upon the subject are models They are full of authentic facts and of sound financial principles Of course it ~~follows from the situation that no tempori~~ safely tolerated It is a fight between honesty and dishonesty, and there is no middle ground Every Republican who hesitates or falters should be discarded as a candidate, and an honest money Democrat preferred to a dishonest money Republican The party tendency toward the true position can be confirmed only by identifying it with true men To yield to the support of timid or unsound men because they are technically Republicans is to destroy that representative character of the party which is the sole chance of maintaining its ascendency

"THE DEPRAVITY OF THE CHINESE."

EDITOR BEE In your paper of the 7th inst. there appeared a highly sensational article which we think is false in every important particular and is calculated to convey an erroneous impression and to do great injustice to the Chinese

For instance you say "Wholesale murder of all Chinese scholars at the mission has been broached For months this subject has been the principal cause of their meetings at which the most intelligent and prominent of their merchants are called to preside

Again you say "In the Joss house is a card reciting the object for which contributions were exacted, and urging the necessity of generous donations"

From the sum named a standing reward of $750 has been offered for the assassination of Dong Gong the leader of the Chinese Christians $500 each for two of his principal adherents and $250 each for his less influential co believers

Now Mr Editor, you must have been deceived we can hardly believe you really wish to misrepresent the Chinese or do them injustice You have been interviewed with reference to this matter and your reply was you know nothing except what has been told you and where you gave names we have had those persons interviewed and not one of them pretended to have a single fact but referred to rumors— somebody had said to somebody that somebody has said something

If there is any organization of the character you represent let the fact be exposed and the guilty if any be punished

If the statements are false let the names of the villifiers be given so that they can be arrested and prosecuted for libel and slander

Such false rumors published and believed tend towards riot and bloodshed in the city

We come here as an industrious, temperate law, abiding people, and supposed that in America we had a right to worship God according to the dictates of our own conscience and we certainly admit and concede that right to others, and that without opposition or molestation.

If the killing of Dong Gong had been contemplated his life could have been secretly taken hundreds of times at least within the last year He could have been shot from upper windows which he daily passes, without any one knowing who perpetrated the crime except the criminal himself, and nothing would be more likely to produce such a result than tracing of the false and unwarrantable slanders to him positively as the author

We ask and challenge any one to point out in the Joss House' or elsewhere cards reciting the necessity "for contributions" for any improper purpose. If the Chinese in this city cannot be trusted to translate them let copies be sent to Rev Mr Gibson the Chinese missionary in San Francisco, in whom we have full confidence and we will cheerfully abide by his decision

Cards and "good words" in the Joss house urge the people to be good and point to a *higher life*

As to the treatment of the man that was shot his nearest relatives were called and took entire charge of him and were permitted to keep him in the back part of the Joss house as long as desired

Does not the conduct of the Chinese in this state for industry, economy temperance and a disposition to obey the law when understood by them compare favorably with any nationality?

JONG WAH Joss House

The undersigned, Chinese merchants of Portland have seen the article above referred to and published in the *Bee*, and sincerely regret its publication

The editor of the *Bee* has been imposed upon and with reference to us the article is false in every particular and we believe it false in every other particular and as a whole.

A STATEMENT.

Public curiosity is alive on the question of the comparative merits of the various Encyclopedias Not many have both time and ability to properly examine such works and hence, must largely depend upon the judgment of the few who can and do put them to the tests of criticism and practical use unless they trust to the colored statements of agents)

During the past few weeks a number of gentlemen of scholarly ability in this city have examined the NEW UNIVERSAL (Johnson's) and critically compared it with the other Cyclopedias and I have statements from these critics which fortify the remarkable reputation this great work has acquired in other States of the Union over and which when made public will materially aid in deciding the Cyclopedia question I have only space to lay the one from the Hon Matthew P Deady LL D U S District Judge

PORTLAND Or Aug 25 1878

I have examined the first volume of Johnson's Cyclopedia and also a large amount of testimony and criticism concerning the whole work From this evidence I am satisfied that this Cyclopedia must take and maintain a *high* rank as a work of reference

It is [illegible] and appears to contain [illegible] and [illegible] information on all [illegible] every subject with the [illegible] knowledge Its leading articles [illegible] are [illegible] MATTHEW P DEADY

As one result of the comparative examination of these works both in California (my late field) and here I have several sets of the higher priced Cyclopedias—taken in exchange for Johnson's—which I offer for sale Will furnish complete new sets of the American Cyclopedia 16 vols latest edition at *very large* discount from regular price The "Condensed American" (Appleton's) I will furnish [illegible] After three years of competition with every work of the kind in use the proof is overwhelming that as a *cyclopedia* [illegible] *and* [illegible] *scientifically* [illegible] *medium of knowledge* Johnson's UNIVERSAL CYCLOPAEDIA is *without an equal* in the English language and in price it is a marvel of cheapness

Oregon's New Governor

From the New York Times

Oregon is happy in the possession of an unusually sensible Democratic governor His recent message to the legislature is devoted almost exclusively to state concerns, and touches on national matters only where as in connection with the Indian question the state is intimately interested He has nothing to say about the president's title the southern question or even the federal finances His treatment of state affairs is for the most part straightforward and intelligent though his recommendation in regard to the taxation of foreign capital loaned in the state is impracticable and open to grave doubt as to its constitutionality under the decisions of the supreme court Apart from that consideration Oregon is not a state which can afford to check loans to its people and Gov Thayer ought to know that whatever tax is levied on the capital of such loans must in the end be paid by the borrowers

A Voice of Agony from Omaha

[From the Omaha Herald (Dem)]

It was B F Butler who used ten years of an ill spent life in denouncing every Democrat in this country who dared to object to the ruin which he himself helped the Republican party to bring upon it as a traitor This is the beastly fraud who organizes mob violence in Worcester, Mass to compel the party which he has betrayed and now wants to destroy, to indorse him as a successor of Gaston This is the ghastly feast to which Democrats are invited in this dismal year of our Lord 1878

Up to the end of September the receipts of Seattle coal in San Francisco for the year were 74 461 tons In the same time British Columbia sent 88 975 Australia 104 0[illegible] aggregate total [illegible] 1 [illegible] The against 389 731 during the same period in 1877 Seattle coal is quoted wholesale at $6
